

Washington Addition Streets Reconstruction Project Preliminary and Final Engineering Services

Addendum #1

4/22/2019

The following questions have been asked about the Washington Addition Engineering Services. The answers are given in the blue text after each question.

1. Scope of services – #4. Will the contracted Engineering firm be required to negotiate with property owners, and secure the necessary property? **No, this requirement has been removed.**
2. Scope of services- #3. Will the contracted Engineering firm be required coordinate necessary permits with State, local and CDOT if needed? **No, this will be the responsibility of the selected contractor who will be completing the designed work.**
