First Street Construction Begins

ALAMOSA—Beginning, Monday April 5th, First Street will be closed at the Bell Avenue intersection through Mountain View Place while crews begin this year’s construction project. It is anticipated that this section will be closed for 6-8 weeks until work continues east of Mountain View Place. An alternate route will be available using Second Street between Alamosa Avenue and Edison Avenue. However, please use Third Street or Main Street to avoid construction traffic if possible.

Residents whose trash service is along the closed section of First Street should still place their trash containers in their normal pickup areas. Public Works Solid Waste crews will take the trash containers through the construction zone for disposal on your scheduled pickup day.

Please contact the Public Works Office at (719) 589-6631 if you have any questions.
