***Short-Term Rental Work Session Wednesday, April 6, 2022***

Alamosa, CO - The City of Alamosa is conducting a follow up work session to discuss the impacts of short-term rental (STR) units and potential regulations. This is the fourth and most likely final work session to discuss STR regulations. Council is continuing to discuss regulations while the moratorium on new STR licenses remains in effect until April 30, 2022. Council is expected to extend the moratorium at their April 6th City Council meeting to allow for the completion of the process.

The work session will be held in the Council Chambers at Alamosa City Hall at 6:00 p.m. on Wednesday, April 6, 2022. The format will include a presentation from staff, review of proposed regulations including establishing STR Zones and setting fees, and City Council discussion.

The City highly encourages anyone who has an opinion on this topic to attend the work session. You can attend in person or via Zoom by using this link to join the webinar: <https://us02web.zoom.us/j/81934281388> or using Webinar ID: 819 3428 1388.

The second reading of the proposed Ordinance that will include modifications following the work sessions regarding STRs is currently scheduled for April 20, 2022 at the regularly scheduled City Council meeting.
